

Ice Qube, Inc. Conflict Minerals Statement

Nov 5, 2019

To our Valued Customer:

The Securities and Exchange Commission's Conflict Materials Provision of H.R. 4173 Section 1502 of the 2010 Dodd-Frank Act requires all *publicly traded* manufacturing companies to annually report whether the products they manufacture contain Conflict Minerals, specifically, tin, tungsten, tantalum and gold that are mined either in the DRC (Democratic Republic of Congo) or one of nine African nations that share a border with the DRC.

Ice Qube, Inc. is a not a publicly traded company and is not subject to the reporting rules for Conflict Minerals. Also, Ice Qube, Inc. does not directly purchase tin, tungsten, tantalum or gold. Rather, we are several supply chain layers removed from the mining and processing of these minerals.

However, Ice Qube Inc recognizes it has a responsibility not to support or contribute to violence and human rights violations for any reason and by any means. Consequently, we have put in place a due diligence strategy to ask our suppliers to ask their sub-suppliers the origin of any Conflict Minerals in their products, and to investigate when necessary.

Thank you for your inquiry. We appreciate your business.

Sincerely,

A handwritten signature in cursive script that reads "Jeffrey S. Palmer".
